# CHAIRMAN'S MESSAGE

It is my immense pleasure to introduce my company profile.

Wajna Contracting and General Maintenance L.L.C has started its business in 2010 as a result of meeting both electrical and mechanical engineers. We are doing our utmost to expand our share of the market in the UAE. We do all our services with passion.

Our eyes are always on the huge and prominent target that is client satisfaction. This is supported by our flexibility and knowledge during which we listen carefully and patiently to our clients to understand all their detailed requirements.

Our priority is to convene clients with sustainable solutions that save energy. We see our success in the success of our clients. Our reputation is our treasure that we need to keep safe and clean for our long journey.

**Sincerely Yours,**  
**Abdulla Ali Musleh Jumhour Al Ahabbi**  
**Chairman**

# CEO'S MESSAGE

Having the right vision means nothing without having the right drive to make it happen. Since 2010 Wajna Contracting & General Maintenance LLC is on a mission to continuously strengthen our portfolio, engage in new Projects and extend our reach across the UAE. We successfully set and achieve our goals through our people, passion and innovation and Excellence is at the core of everything we do.

I am proud that our operations have grown, from being primarily an MEP contracting Establishment to higher-margin areas of full construction by delivering comprehensive services through our established teams in Poultry Farms, Schools, Residential and commercial apartments, Warehouses, Villas, Substations, etc.

We uphold our reputation by providing quality work from a skilled team. Our unyielding drive to offer inventive and unique services to our associates keeps us grow in the industry.

Our Business Philosophy is “Quality Comes First and profit is its logical Sequence”

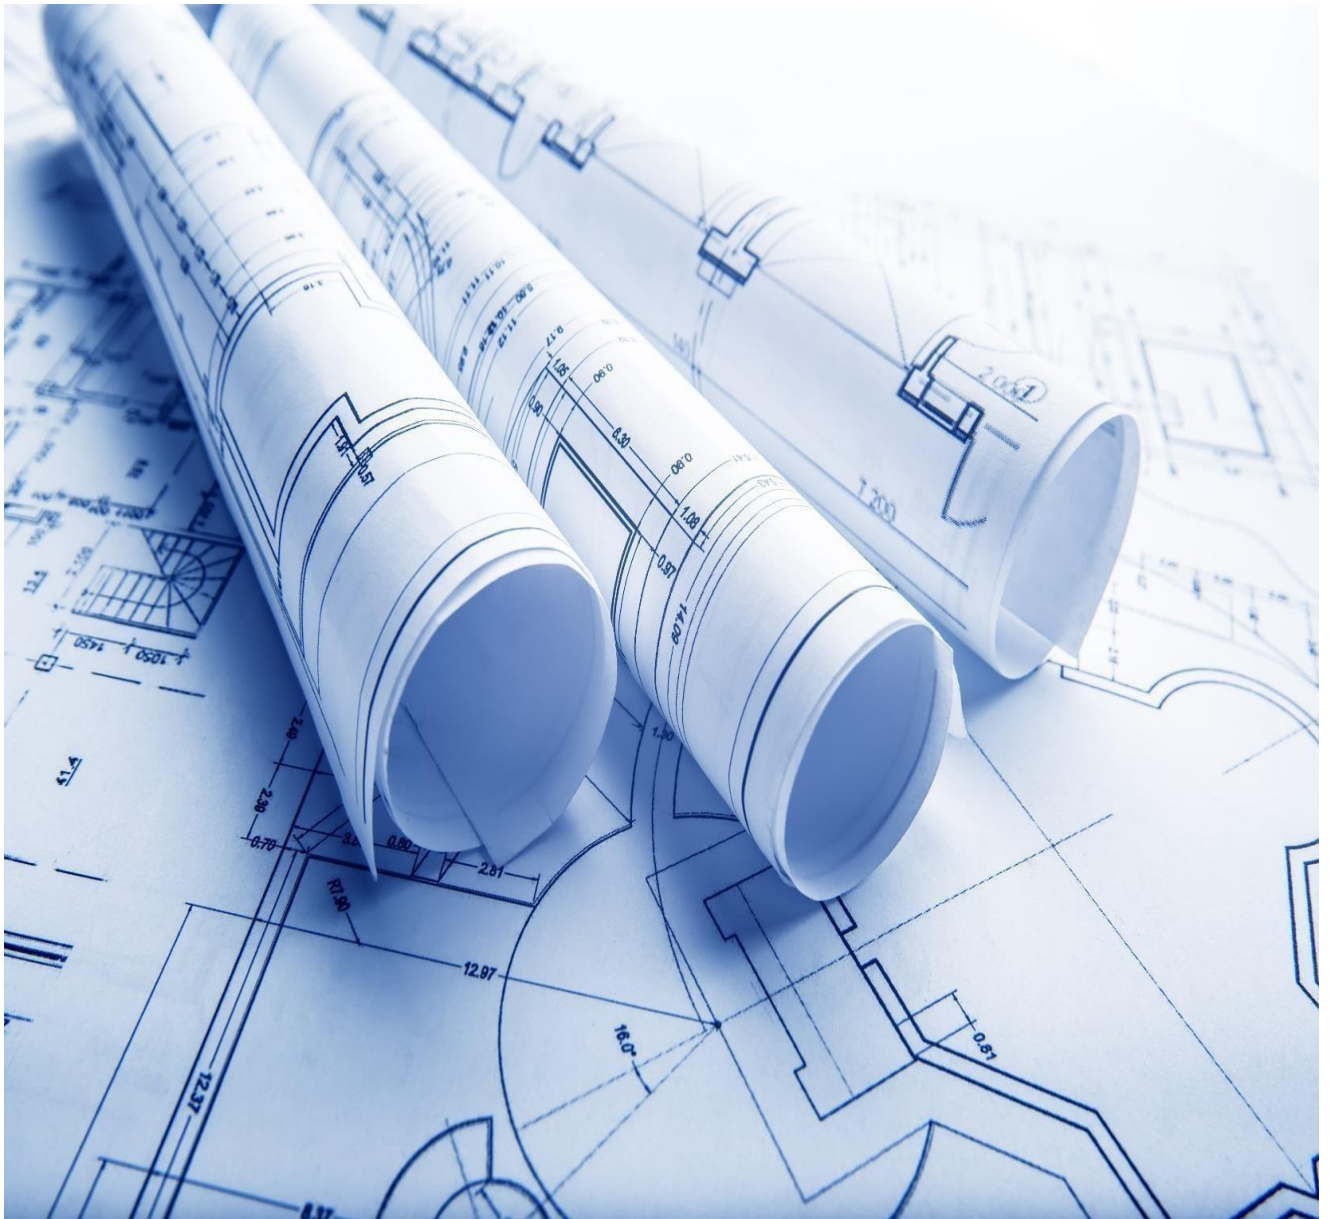

I believe that the best is yet to come and we look forward to a future filled with success and prosperity.

**Sincerely Yours,**  
**Mohammad Abul Kalam Mohammad Nurul Islam**  
**CEO**

SERVICES

WHAT WE DO

All rights reserved

**Wajna**

Contracting and gen. maint LLC

# 5.1 CIVIL CONSTRUCTION

Our commitment to customer satisfaction and quality is a continuous journey towards improving the performance of our staff and services. We take great pride in what we have achieved.

Our Major achievements are in:

- Power Transmission & Distribution
- Street Lighting
- Infrastructure
- Commercial Buildings
- Residential Buildings
- Hotels
- Villas
- Industrial Buildings (Factories)
- Schools and Universities
- Hospitals
- Townships

## RESIDENTIAL BUILDING & VILLAS

All rights reserved

**Wajna**

Contracting and gen. maint LLC

Having all the in-house capabilities and expertise we cover all phases of the project, from design to inception, to timely completion.

## Project Management

### 1. Budget Estimation:

All work is done in conjunction with the project's designated team that ensures cost control through all the project phases.

### 2. Project Scheduling:

We put in all our team to establish an aggressive but feasible project timeframe.

### 3. Project Tracking:

Every manager follows up on the actual development with the schedule and finance estimates.

### 4. Project Safety:

We maintain strict and high safety policies and practices to ensure the welfare of our workforce and eventless completion of the project.

### 5. Quality Assurance:

Since the company was founded, the issue of quality has always been a top priority. The department is headed by a Management Representative for Quality (M.R.Q.) and is supported by Quality coordinators and a team of Internal Quality Auditors.

### 6. Quality Control Areas

- Ensure customer satisfaction
- Ensure workplace safety
- Ensure environmental friendliness

WAJNA's strong combination of pre-construction and building expertise has enabled the company to successfully meet varying demands from both, the public and private sectors.

WAJNA provides its services in nearly all sectors of the construction industry among which:

**Our specialized markets include:**

- Commercial building & warehouses
- Manufacturing plant expansion
- Residential Facilities
- Government Projects
- Industrial Establishments

All rights reserved

**Wajna**

Contracting and gen. maint LLC

Wajna provides a range of services on a region-wide scale delivered by a dedicated team of professionals committed to providing the highest level of quality services.

### **Design**

Our team provides civil, structural & electromechanical designs to suit any architectural requirement. Whether it is a commercial project or a residential facility with a traditional look our team uses state-of-the-art technology to innovate construction designs that boast technical excellence as well as visual splendor.

### **Construction Management**

This is the core of our business as our decades of experience are put into practice while managing the complete project construction from start to handing over. Our large network of supporting services enables us to meet all construction requirements through our in-house resources. From modern manufacturing tools to the latest industrial trends, we put all our skills to manage the complete construction cycle.

### **Electrical & Mechanical Services**

A unified team is at work on each site to ensure that all electrical/mechanical services are executed systematically and hence secure a timely completion of the project.

## Health and Safety Policy Statement

- 1.0** The policy is to ensure, as far as is reasonably practicable, the health, safety and welfare of all staff, service users and visitors.
1. The company will, to this end:
- Endeavour to observe all statutes, regulations and codes of practice with which this policy is consistent;
  - Ensure so far as is practicable that sufficient competence is available to the office to ensure the implementation of this Policy;
  - Ensure that appropriate protective and preventative measures are implemented and reviewed;
  - Ensure that all relevant personnel receive information, training and supervision as they need for this purpose.
- 3.0** While the management of the office is responsible for providing circumstances under which its activities can be carried out safely, all personnel also have a legal duty not only to take reasonable care for the health and safety of themselves and others who may be affected by their acts or omissions, but also to cooperate with the management in their efforts to carry out their responsibilities for health and safety.
- 3.0** This Policy and the way it operates will be reviewed in the light of experience and developments within the office, and at least once every year.
- 4.0** A copy of the leaflet "Health and Safety Law: what you should know" is issued with this Policy.

## 5.0 General responsibilities and arrangements

- 5.1** Overall and final responsibility for health and safety in the office is that of the Operations Manager – Mohammad Abul Kalam
- 5.2** Mr .Mohammad Abul Kalam is the HSE Officer and is responsible to the Managing Director for carrying out this Policy at the premises at SHABIYA 10, MUSSAFAH ,ABUDHABI U.A.E. and will ensure that all office personnel using the premises receive appropriate safety training and are issued with Section C of this Policy covering the specific safety arrangements at those premises.
- 5.3** Whenever any office personnel notice a health or safety problem, which they are not able to put right, they must immediately inform the appropriate person designated above.
- 5.4** Any office personnel who are party to an accident, incident or dangerous occurrence, or who are off sick through circumstances linked to the activities of the office, must report the situation to the Director (using the Report Form provided/attached), who is responsible for investigating, recording and reporting accidents and for notifying where appropriate the health and safety inspector.
- 5.5** Any office personnel may ask for a health and safety matter to be placed on the agenda of the meeting of the Senior Management Team.
- 5.6** The HSE Officer is responsible for carrying out the annual Health and Safety Audit, and may be contacted if any health and safety issue remains unresolved.

## 6.0 About this Policy

### 6.1 The office's Health and Safety Policy consists of the following elements:

- HSE 1 Health and Safety Policy Statement (this document);
- HSE 2 Health and Safety Guidelines, which the office is committed to following;
- HSE 3 Specific Arrangements for each of the premises used by the office;
- HSE 4 A Guide to Health and Safety Law for WAJNA CONTRACTING Offices;
- HSE 5 Risk Assessment Form
- HSE 6 Accident/Incident/Dangerous Occurrence Report Form.

6.2 HSE 1 Health and Safety Policy Statement, and any changes to it, will be issued to all office personnel (including not only those employed on a salary, sessional or honorarium basis, but also people contracted as self-employed and volunteers). The relevant parts of HSE 3 will be issued to those office personnel using the premises. HSE 2, HSE 4, HSE 5 and HSE 6 are available from office.

Signed:.....MOHAMMAD ABUL KALAM, Operations Manager, 28 September 2019

## Health and Safety Guidelines

### 1.0 Hazards and risks

All premises used by the WAJNA CONTRACTING, whether for office or site, will be inspected for health and safety hazards before use by a suitably qualified designate of the office/site; any hazards will be rectified (or made safe and brought to the attention of users of the premises while rectification is being sought), and any safety measures implemented will be communicated to all users of the premises.

### 2.0 Risk Assessments

All significant risks associated with the activities of the office/site will be recorded and assessed, and measures to reduce risks to an acceptable level will be implemented and communicated to all concerned.

1. The legislation requires that the assessment be "suitable and sufficient", and that it should:

- Be systematic
- Be comprehensive
- In detail be proportionate to the level of risk
- Involve information provided by all those who may be affected

2.2 All risk assessments will be signed by the Director to indicate the office/site acceptance of the measure taken.

### 3.0 COSHH Regulations

Wherever possible, the use of substances which carry a hazard warning symbol (black on a yellow/orange background) will be avoided. When such use is considered unavoidable (e.g. Tippex, printer cartridges, bleach), the manufacturer's Product Data Sheet will be obtained (from the address given on the product) and brought to the attention of staff who may use the product, explaining the possible hazards and personal protection and first aid procedures.

### 4.0 Insurance

WAJNA CONTRACTING will ensure that all its activities and premises are covered by adequate employers and public liability insurance, and that the employers liability insurance certificate is displayed at the office/site's premises.

### 5.0 First Aid

5.1 It is recommended that all personnels and receptionists should receive first aid training to the level of first aid appointed person (a suitable at least one-day course); the office/site should give serious consideration to funding this training itself. At a minimum there should be one appointed person among the office/site regular staff.

5.2 All the office/site's premises will be provided with a first aid box (white cross on a green background) with the following recommended contents:

Item	Number	of employees	1-5	6-10	11-50
First aid guidance card			1	1	1
Individually-wrapped sterile adhesive dressings			10	20	40
Sterile eye pads with attachments			1	3	4
Triangular bandages			1	2	4
Safety pins			6	6	6
Sterile unmedicated dressings:	Medium		3	6	8
	Large		1	2	4
Extra large			1	2	4
Disposable gloves (pairs)			1	2	4

## 6.0 Accidents, Incidents and Dangerous Occurrences

**6.1** All office/site personnel have a responsibility to report any accident, incident or dangerous occurrence which has resulted, or could have resulted, in an injury of some kind. A sample Accident/Incident/Dangerous Occurrence Form (HSE6) is attached; all completed forms should be submitted immediately to the Director, who will investigate the occurrence if necessary and complete the section "Action to be taken to avoid reoccurrence".

## 7.0 Fire safety

The following fire safety measures will be in place at all the office/site's premises:

**7.1** A statutory Fire Notice detailing the evacuation procedure will be prominently displayed.

**7.2** All office/site personnel using the premises will receive instruction in fire drills and procedures and in the use of fire extinguishers; the procedures will show how clients and visitors are to be accounted for in case of fire evacuation.

Fire drills will take place at least annually and be recorded.

**7.3** Following a risk assessment (and if necessary consultation with the local Fire Officer), appropriate fire exit routes, fire extinguishers, alarm call points, fire detectors, emergency lighting and self-closing doors will be installed.

**7.5** A system of regular checks and servicing will be set up (see 9 below).

## 8.0 Personnel and client safety

**8.1** The office/site will endeavor to ensure the safety of personnels from physical attack by clients, by ensuring that:

- Counseling sessions, and especially initial interviews, will not normally take place without another person in the building;
- Any previous history of violence by clients is investigated at initial interview and recorded in the

assessment report;

- “alert buttons” are installed where possible in counseling

**8.2** Personnels, and especially assessment personnels, need to be aware that clients can sometimes behave unpredictably in ways which may endanger themselves, especially when very distressed; personnels will need training in how to recognize potential hazards or hazardous situations, and how to report them.

**8.3** Since many clients are on prescribed drugs, it is recommended that all offices/sites possess in their office a copy of a book giving information on drug side-effects and overdose hazards; the British Medical Association "New Guide to Medicines and Drugs" (Darling Kindersley) is written in non-technical language and is particularly recommended.

### **9.0 Regular inspections and servicing**

A recorded programme of regular safety inspections will be set up at each of the office/site's premises, as follows:

Monthly inspections

**9.1** •Fire alarms tested, fire exits checked as free from obstructions; Yearly inspections

**9.2**

- fire extinguishers visually inspected and emergency lighting and self-closing doors tested;
- the contents of first aid boxes checked against statutory contents;
- portable electrical equipment and sockets visually inspected;
- furnishings and fittings inspected for hazards;

**9.3** Other inspections

- fire detectors will be tested/serviced at intervals recommended by the manufacturer;
- all fire equipment will be professionally serviced annually (or as recommended by the manufacturer);
- gas appliances will be professionally serviced annually;
- portable electrical equipment will be professionally tested annually;
- fixed wiring will be professionally tested every 5 years;
- lifts will be professionally serviced at intervals recommended by manufacturer;
- practice evacuations will be carried out at least once per year.

**9.4** The person(s) carrying out these weekly and monthly inspections (normally a member of the office/site's staff) will need training in how to carry them out correctly.

**9.5** If the office/site's premises are in a building run by another organization, it will be sufficient that the office/site satisfies itself that the parent organization carries out such inspections itself.

**9.6** If the manufacturer or other competent person recommends different inspection/test intervals from the above, these may be adopted.

### **10.0 Annual health and safety audit**

**10.1** The office/site will be subject to an annual health and safety audit. The person carrying out the audit should preferably be a competent person from outside the office; if not from outside, it should be a person with sufficient experience to carry out the audit who has a degree of independence from the management of the office; it should not be the person who carries out the regular safety inspections.

**10.2** The audit should include such matters as:

- ensuring that the premises (including entrances, toilets, etc.) are kept safe by cleaning, maintenance and repair;
- ensuring that all equipment, especially electrical equipment, is correctly used, properly maintained and regularly inspected;
- ensuring the safe handling and storage of dangerous substances;
- ensuring that the recorded programme of safety inspections detailed above is properly carried out;
- reviewing accidents, incidents and dangerous occurrences and actions taken to prevent reoccurrence;
- ensuring that risks are assessed and that measures following from risk assessments are communicated to those affected;
- ensuring that all current health and safety legislation is being adhered to;

**10.3** The person carrying out the Audit will make recommendations to the management of WAJNA CONTRACTING, who will modify the arrangements for health and safety in the light of those recommendations.

## **11. Health and Safety file**

**11.1** The office/site will set up a Health and Safety File containing

- All sections of the office/site health and safety policy
- Copies of all risk assessments carried out
- Copies of product data sheets for any hazardous substances
- Records of all regular inspections and servicing
- Copies of reports of accidents/incidents/dangerous occurrences (with any identifying client information Removed)
- Copies of the annual health and safety audit and recommendations
- Copies of any relevant HSE publications held
- WAJNA CONTRACTING HSE4 “A Guide to Health and Safety Law for WAJNA CONTRACTING branches”

**11.2** The file will be made available to any office/site personnel upon request.

## Specific Arrangements for the Office

### 1 Accidents

- The First Aid box is situated in the Reception Area.

### 2 Fire Safety

State who checks, and how often

- Fire extinguishers – Check Monthly
- Escape routes – Check Daily – All Staff to report any obstructions.
- Fire Alarms – To be checked by the Building Owner / Maintenance Company.

### 3 Other responsibilities:

State who is responsible for:

- General maintenance of premises is the responsibility of the Building Owner.
- Regular safety inspections and servicing for the premises is by the Building Owner.

### 4 Hazards:

- Safety Guidelines will be issued to all personnel using the premises as and when potential hazards are evident.
- Product data sheets will be attached to this manual if and when hazardous products are in use on the premises.

### 5 Information:

- The health and safety file, containing all the office's health and safety information and records, is available to any office personnel upon request at our office.

## A Guide to Health & Safety Law

### 1.0 Management of Health and Safety

Employees must:

- make assessments of health and safety risks;
- record the significant findings of risk assessments if there are 5 or more employees;
- re-assess if work or equipment changes;
- notify identified risks to employees.

### 2.0 Reporting of Injuries, Diseases and Dangerous Occurrences Regulations

Employers have a duty to report to the local Environmental Health Department: fatal accidents, major injury, dangerous occurrences, accidents causing incapacity for more than 3 days, certain work-related diseases.

### 3.0 Control of Substances Hazardous to Health Regulations (1994) (COSHH)

This covers every workplace and substance including dust, fumes, chemicals, micro -organisms. Employers must prevent/control exposure; make a suitable and sufficient assessment of risks.

### 4.0 Noise at Work Regulations (1989)

Employers must carry out assessments of noises levels; take action where necessary (certainly if over 90 decibels).

### 5.0 Manual Handling Operations Regulations (1992)

Covers any transporting or moving of a movable load. Employers must: assess the risk of injury from manual handling; establish measures to avoid hazardous manual handling; provide information and training on handling of loads.

### 6.0 Health and Safety (First Aid) Regulations (1981)

Adequate and appropriate first aid arrangements; suitable number of qualified first aiders recommended (1 per 50 employees); inform employees of arrangements.

### 7.0 Display Screen Equipment Regulations (1992)

Employers must: assess workstations, reduce risks, provide breaks or changes in activity, provide free eye tests and spectacles if necessary. Workstations must conform to standards set out in the Schedule to the Regulations.

### 8.0 Fire Precautions Act 1971 and Fire Precautions (Workplace) Regulations 1997

Buildings containing more than 20 people must have a Fire certificate. Employers must:

- assess the fire risks in the workplace
- check that a fire can be detected in reasonable time and that people can be warned
- check that people who may be in the building can get out safely
- provide reasonable fire-fighting equipment

- check that those in the building know what to do if there is a fire
- check and maintain fire safety equipment.

#### **9.0 Workplace (Health, Safety and Welfare) Regulations (1992)**

These regulations cover a wide area of provisions. Among other things, employers must provide:

- effective and suitable ventilation,
- suitable and sufficient lighting,
- a clean working environment,
- sufficient space and a suitable workstation,
- safeguards against accidents,
- washing facilities and drinking water,
- facilities for eating meals at work.

#### **10.0 Health and Safety Information for Employees Regulations (1989)**

Employees must be provided with information relating to health, safety and welfare in the form of an approved poster or leaflet "Health and safety law: what you should know" (available from HSE Books).

#### **11.0 Consultation with Employees (Health and Safety) Regulations 1996**

Employers have a statutory responsibility to ensure that staff is consulted on significant health and safety issues.

**Risk Assessment Form**

**1.0 Risk Assessment Form:**

**Date of assessment:**

**Completed by:**

**Who was present:**
